Brief explanation of the figure reported above:

The above results are based on TMA Group of Companies acquiring Mark Sensing Limited on 22 October 2008 ie The transaction has been accounted for using the guidelines as set out in AASB 3 'Business Combinations'. In line with the guidelines of that standard, the transaction has been accounted for as a reverse acquisition.

The attached financial statements and Directors' declaration have been audited

Annual General Meeting

Place & time: TBA

Date: Estimated late October 2009

Annual Report available (approximate date): 31 August 2009

Managing Director's Report

OUR COMPANY

Merger Transaction

The shareholders of Mark Sensing Limited (MSL) approved the merger with TMA Group of Companies Pty Limited (TMA) on 22 October 2008, in accordance with the terms set out in the notice of Extraordinary General Meeting dated 9 September 2008.

The transaction has been accounted for using the guidelines as set out in AASB 3 'Business Combinations'. In line with the guidelines of that standard, the transaction has been accounted for as a reverse acquisition.

Review of Operations

The Group's profit after income tax for the year of \$2,847,000 compared to \$343,000 in the previous year.

Given that the actual results exclude the trading results of Mark Sensing Limited prior to 23 October 2008, I have limited my comments on the full 12 months of trading of the 2008 and 2009 financial years for both Mark Sensing Limited and the TMA Group of Companies Pty Ltd.

The amalgamated results of the full 12 months trading of both Mark Sensing Limited and the TMA Group of Companies Pty Ltd were:

Full Year to	30 June 2008	% of Sales	30 June 2009	% of Sales	% 08 to 09 Movement
	\$'000		\$'000		
Sales	43,095		52,166		21%
EBITDA	3,251	8%	5,562	11%	71%
EBIT	2,500	6%	5,029	10%	101%
Profit /(loss) before tax	386	1%	3,506	7%	808%
Profit after tax	473	1%	3,069	6%	549%

Full year's trading

Our Group sales increased by 21% and profit after tax increased by 549% over the previous year. This has been achieved through a strong focus on growth, and the initial delivery of synergies.

The implementation of the merger is going well and will continue to be a significant workload in this 2009 year.

The difference between the \$3,069,000 reported above and the actual group profit of \$2,847,000 is the profit of the Mark Sensing (stand-alone) in the period from 1 July 08 to 22 October 2008.

Our after tax profit for the year ended 30 June 2009 benefited from a reduced tax expense by \$614,000 being the net difference from the recognition of a carry forward loss previously not recognised as a future tax asset and acquisition costs which for tax purposes have been recognised as part of the cost base of the acquisition.

Our China Result

There has been a significant amount of time and money spent on realigning the China business. As a result of these activities the China business has incurred a loss of \$1,046,000. While this may be considered to be a disappointing result, it is critical to understand that this has been driven by the need to restructure and position the China operations to create the right base for the future growth and profitability. It is expected that China will return to profitability next year.

Our People

Our people are the heart of our organisation and the key to it's ongoing success. I would like to acknowledge and thank all our staff for their continual commitment, understanding and hard work.

Future developments

While a sense of calm has appeared to return to the global economy, I anticipate that it will be a slow drawn out recovery. I expect that the current difficult global trading conditions will continue until December 2010. In the face of these challenging times, the group continues to be very focussed on the ongoing investment in our Technology through our Research and Development hubs in Australia and China.

Synergies will continue to be a strong focus on increasing the group's profitability as we move forward. Additionally management expects to maintain its organic and acquisition growth in line with the organisation's financial and strategic targets and guidelines.

For further information please contact Michael Whelan at Mark Sensing on + 61 3 9720 7886.

Yours sincerely,

Anthony Karam
Managing Director
